Portfolio

EDUCATION

North Carolina Agricultural & Technical State University | Greensboro, NC | Expected May 2027

Bachelor of Science in Cybersecurity; 3.55 GPA

TECHNICAL AND PROFESSIONAL SKILLS

Technical: SIEM Monitoring, Vulnerability Assessment, Python, Java, SQL, Git, GitHub Copilot, Linux, AWS, Microsoft Azure, Redis, Locust, Gunicorn, Power BI, Excel

Professional: Vulnerability Assessment & Risk Management, Threat Detection & Incident Response, Stakeholder Communication, Cross-Functional Collaboration, Technical Troubleshooting, Data Analysis

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

- AWS Certified AI Practitioner (AIF-C01) - Certified
- Microsoft Azure Fundamentals (AZ-900) - In Progress

WORK EXPERIENCE

AT&T | Dallas, TX | June 2026 - August 2026

Cybersecurity Intern

- Supported the BISOS (Business Information Security Officer) Automation and Insights team on an internal security dashboard, running load and performance testing with Locust and implementing in-memory and HTTP caching strategies that improved dashboard response times by 85%, delivering a reliable 5-second load time.
- Shipped 3 new features to a security team's internal dashboard in a single week, contributing code through GitHub with code review, pull requests, and merges supported by GitHub Copilot and the GitHub MCP server, and deploying components using Azure Blob Storage and Gunicorn for reliable, scalable delivery.
- Completed Immersive Labs cybersecurity training and presented internship contributions to team leadership, delivering strategic, actionable recommendations to VP stakeholders in a clear business summary.

Amerio Technology AI | Dallas, TX | May - August 2025

AI Analyst / Engineer

- Designed and deployed AI applications addressing business-critical challenges.
- Engineered data pipelines that supported continuous monitoring, retraining, and deployment, keeping models accurate and production-ready.
- Collaborated cross-functionally with stakeholders to align technical solutions with business needs.

TrePar Investments | Dallas, TX | June - August 2024

Cybersecurity Intern

- Monitored security systems and network traffic using SIEM tools to detect anomalies and intrusions.
- Conducted vulnerability assessments and penetration testing, analyzing systems and networks for vulnerabilities and recommending risk mitigations.
- Supported incident management workflows, reducing response times by 20%.

PROJECT EXPERIENCE

Anime Return Tracker | Personal Project | 2026

- Developed a local-first anime watchlist web app using Next.js, TypeScript, Prisma, and SQLite, integrating the AniList API through a supervisor-orchestrated multi-agent pipeline that kept schedule data synced and up to date.
- Built deduplication logic and health monitoring into the notification system (ntfy, Resend), plus backup/restore capabilities, ensuring reliable delivery and minimizing downtime for a production-ready personal tool.

Flask-Based URL Shortener & QR Code Generator | Greensboro, NC | 2025

- Developed a Flask web application integrating the Cutt.ly API to generate quick, shareable short links and QR codes.
- Designed backend routing, API handling, and deployment workflows that improved workflow efficiency by 35%, streamlining delivery from request to result.

Cisco Catalyst 2960 Switch Reconfiguration Lab | Greensboro, NC | 2025

- Reconfigured Cisco Catalyst 2960 switch infrastructure with VLANs, trunking, and security hardening to segment network traffic and reduce the attack surface.
- Verified network configurations using Cisco IOS show commands to confirm reliable connectivity and consistent performance.

ACTIVITIES & HONORS

Office of Leadership & Civic Engagement | Kappa Alpha Psi Fraternity, Inc. Guide-Right Committee | Bronze Presidential Award Winner (2016 & 2017) | 160+ Hours of Community Service | Dean's List Recipient | Chancellor's List Recipient | Mr. Chess Club
